

Books and Materials to purchase

Revised 07/25/2013

You can order texts via our ONLINE BOOKSTORE at www.ashsbooks.com. This link will take you to our site with Matthews Medical Books. Matthews receives updated lists of all of the books required for our courses so books should be more readily available. *You are not required to use the ASHS online bookstore.*

Here are some URLs to try of other places to purchase books:

- <http://www.Fetchbook.info>
- <http://www.AIBooks.com>
- <http://www.powells.com>
- <http://www.walmart.com>
- <http://www.amazon.com>
- <http://www.gettextbooks.com>

Final note: I **DO NOT** recommend purchasing a book more than 2 months in advance, as an instructor may find a new text and change the required material for a course.

Course # and Materials

700: No Required Text or material

Students will use information from a large variety of resources that are available on the web. In a number of cases, students will be required to visit and review the content of a specific web site. This is equivalent to a specific reading assignment in a required text.

The text titled Introduction to the Health Professions, 4th Edition, by Stansfield and Hui, or the 5th Ed. By Stansfield, Cross, and Hui, are available through online bookstores (i.e. amazon.com) should a student wish to acquire a text for this material.

You may find it helpful to use an encyclopedic software program you may have already (e.g. Britannica, Compton's, etc.), and you should feel free to use it. Information is also freely available from medical sites on the web (e.g. MedScape) and from professional associations (e.g. American Osteopathic Association). Some limited information is available, but considerably less accurately, from free online encyclopedic sources, but students should use such open-content resources only if their information can be found and confirmed more reliably elsewhere.

702: Required text:

Title & Edition: The Human Brain: An Introduction to Its Functional Anatomy

Author: John Nolte, Ph.D.

Year of Publication: Copyright 2008.

Publisher: Mosby-Yearbook, Incorporated 6th edition

ISBN: 1933895144

Students will also use information from a large variety of resources that are available on the Web as well as a series of "Mini-Lectures" designed to provide in-depth information about selected topics related to the business of audiology. In a number of cases, students will be required to visit and review the content of a specific website. This is equivalent to a specific reading assignment in a required text.

837: No Required Text or material

Students will use information from a large variety of resources that are available on the world-wide-web

841: No Required Text or material

Recommended not required texts:

Title & Edition: Permission Marketing: Turning Strangers Into Friends, and Friends into Customers

Author: Seth Godin and Don Peppers.

ISBN: 0684856360

Title & Edition: Selling the Invisible: A Field Guide to Modern Marketing by Harry Beckwith. It is a great book and it addresses the quandary audiologists face in providing the totally invisible benefit of better hearing. It will help students understand the issues facing the profession much more clearly.

846: Required Text :

Title & Edition: Audiology-Practice Management, 2nd Ed

Author: Dunn, Roeser & Valente

Year of Publication: 2007

Publisher: Theme

ISBN: 158890511X

The required course packet is listed in the course content under "References." You will need the Adobe Reader to download the readings.

847: No Required Text or material

Students will use information from a large variety of resources that are available on the world-wide-web.

848: No Required Text or material

Students will use information from a large variety of resources that are available on the world-wide-web.

851: Required text:

Title & Edition: Ethics in Audiology: Guidelines for Ethical Conduct in Clinical, Educational and Research Settings. Second Edition

Author: Hamill, Teri (ed)

Year of Publication: 2012

Publisher: American Academy of Audiology, 11730 Plaza America Drive, Suite 300, Reston, VA 20190

ISBN:0-9766294-4-5

May be ordered at 1-800-AAA-2336 ask for Kevin Willmann at extension 1039. There is a special price for this text for those who indicate they are in this class.

In addition to the text, a series of readings will be provided on-line for this course. Class discussions and assignments will be based on the readings for each week. Reading assignments may be found in each week s narrative and accessed through links provided on the LINKS page.

PLEASE NOTE: You are strongly advised to download and read the assigned materials each week. There is a great deal of material to be downloaded, read and understood, so it is important that you keep up. Students will be expected to demonstrate understanding of the reading materials in their written assignments, chat room discussions, and on a final examination. You may find it extremely helpful to print the documents downloaded and organize them into a loose- leaf binder for later reference.

852: No Required Text or material

Students will use information from a large variety of resources that are available on the world-wide-web. In a number of cases, students will be required to visit and review the content of a specific web site. This is equivalent to a specific reading assignment in a required text
